BUTLER AGAIN IN LIMELIGHT

Philadelphia, Sept. 20—Brig. Gen. Smedley D. Butler's tenure as director of public safety here will end within a short time, according to rumors that spread through city hall today.

The breach between Mayor Kendrick and the director is reported to have widened during the week and the report spread that the city executive would ask for the resignation of his cabinet officer.

Politicians in city hall speculated whether Butler would be "fired" on short notice or asked to give up his post the first of the year when his furlough from the marine corps expires.

The bridge was opened for traffic last night.

Will Start Pouring Cement On Bentleyville Road Monday

The Fifth street detour on the Charleroi-Bentleyville road will not be available to motorists after Sunday, as the contractors expect to begin pouring cement on the section from the bottom of Colvin's hill to the intersection of the Monongahela road on Monday morning. The machinery for this work is already on the ground. This section of the road will be closed for 21 days after the work of laying the cement is finished. Grading on the other portion of the work is being pushed as rapidly as possible.

Flames Did Not Get Into Eclipse Mine

After a bitter fight, flames which had spread into the shaft of the mine of the Eclipse Coal company at Thomas Station after the tipple had been destroyed, were got under control at 9 o'clock yesterday morning.

Damage done by the fire, Lane Blackburn, of Washington, president of the company, announced last night was not quite as heavy as at first believed. The bull wheel did not drop into the shaft and the engine house was not harmed as much as had been expected.

The property loss will likely not exceed \$30,000, but the loss due to the mine being forced into idleness at this time, just when the coal market has been showing signs of strength for the first time in months, will be a blow to the company.

Although the damage was heavy, President Blackburn expressed gratification last night that the efforts of the firefighters had prevented the flames getting into the mine proper. The fire had penetrated practically to the bottom before finally put out.

The loss suffered by the company will be partially covered by insurance.

AGAIN ITS THE WOMAN IN CASE

Mt. Vernon, Ill., Sept. 20.—Gossip today entwined itself about the names of Rev. Lawrence Hight, circuit rider pastor and Mrs. Wilford Sweetin as authorities attempted to unravel the mysteries surrounding the deaths of Mrs. Hight and Sweetin.

It is known that Hight, now in jail, charged with murdering his wife by feeding her rat poison, called at the Sweetin home in the mornings while Sweetin was away working in the mines. These morning visits, Hight said, were primarily to "pray with Mrs. Sweetin."

Although the cause of Sweetin's death was given out as "ptomaine poisoning," the authorities have ordered his body exhumed and will examine it.

Sweetin's sister, Mrs. Bumbus, said the pastor sat up several evenings with Sweetin just before he died. "We never suspected him of having anything to do with it until his wife died," she said.

Wheeler Is "A Common Liar" Says Daugherty

Columbus, O., Sept. 19.—United States Senator Burton K. Wheeler of Montana, running mate of La Follette on the Independent ticket, was termed a "common liar" by Harry M. Daugherty, former attorney general, in a statement given out here today, after a political address made here last night by Wheeler.

Wheeler, in his address, investigated against the "Ohio crowd" specifically mentioning persons and incidents.

Speaking of the Senate investigation, Daugherty's statement said: "Like most of his procured witnesses, Wheeler is just a common liar."

"Wheeler has come and gone and Columbus still stands," the statement said. "He heralded his entrance into the state by a camouflage statement about an imaginary suit to be instituted against him. Either he was taking counsel with fears inspired by a guilty conscience or, circus-like, he was advertising himself to increase the door receipts."

"So far as I know, no one has any desire to mix with Wheeler even in a lawsuit. The stench he raised in his rotten inquisition with false assertions and hired witnesses is too malodorous to invite company. Like most of his procured witnesses, Wheeler is just a common liar."

"It would be fortunate if every voter could hear him. All then would know to what extremes the reds and radicals will go because of their opposition to the union which kept the railroads running and prevented the people of this country from starving and freezing."

The officer chased Baxter to the river and at Thirteenth street Baxter collided with the Packard of Harry Cox. The Ford was not completely out of commission while the Cox car was damaged to the extent of about \$60. Baxter was arrested by Chief Michael Ready and placed in the lockup after which an information was made against him. He furnished bond and was released.

About Twenty Leave West Newton For Other Parts This Morning—Large Colony Living About Two Miles From Town Remain

SCOTT STILL AT LARGE

Funeral Services For Late Chief Held Thursday Afternoon—Entire Block Crowded With Citizens And Friends. Over 150 Autos In Line

West Newton's colored population decreased to the extent of about 20 persons today, when that many took the advice of a warning issued by state citizens the day after the murder of Chief of Police Rea. They were told in plain words that if they had not lived in that town for five years or more, they had until Saturday morning to pack their trunk and make a getaway. Approximately 20 of them took advantage of the time allotted them and this morning they are on their way to other parts.

Those leaving have been living within the confines of the borough. About two miles from the borough limits is where the larger colony of the colored folks live. A warning to them was issued at the same time but so far they have not moved. Just what the result will be is not known as the citizens of West Newton are not in a frame of mind to tolerate them much longer. County detectives and state police are still working on clues that come up but so far have no direct line on any person. Yesterday afternoon they were informed that a man answering the description of Scott was seen on the streets of Pittsburgh, but investigation did not reveal anything.

100,000 RETURN WAR MEDALS

London, Sept. 20.—Thirty thousand British war veterans have decided to return their 100,000 war medals to the government as a protest against the government's lack of appreciation for "the way they did their bit."

The Association of Ex-Servicemen is promoting the protest. The members object to the government's failure to admit them to full status as civil servants without the necessity of passing examinations. In many cases forfeiture of the war medals will mean a sacrifice of pensions.

THE "FALLS" OF THE PRINCE.

From all accounts the Prince of Wales has had a good time on American soil. Only in one instance has he passed through an unpleasant experience when at the Belmont race course several thousand persons decided that there was more fun in looking at a Prince than at horses. It seems that at the moment Albert Edward happened to be standing apart in the company of only one person, and so he was surrounded jostly and pushed about by the curious mob until he was helplessly thrust upon him by the determined mob behind them. An unprecedented and trying experience for royalty, but no harm was intended, no real harm done, and doubtless the Prince himself will look back upon it only with amusement.

The visit has disposed of one mistaken popular impression. The Prince of Wales has proved himself a good rider and thus shown to be unreliable those stories of his tendency to fall from his horse. The Prince's groom is amusingly quoted in explanation as follows: "Why, 'e never fell off a 'orse in 'is life, sir. 'E don't fall. It's the 'orse that falls. When a man is thrown 'e leaves the 'orse completely. But the Prince, 'e sticks on. I'd wager a hundred pounds to sixpence 'e's never fell off a 'orse in 'is life." The Prince is said to have a record of fourteen falls in two years, but he fell with, not off the horse. The fall of a horse in English riding to hounds and particularly in that wild staple-chasing with its leaps over fences, walls and brooks, is a very common incident, and therein is the danger.

THE SENTENCE.

There are indications of a widespread conviction that wealth saved Leopold and Loeb from the gallows, and of the further conviction that wealth will shorten their imprisonment. Apparently such is the conviction of the young criminals themselves, for they are reported as jesting at the expense of their life terms for murder and the added years for kidnapping. Were it believed that they will be held for life and suffer real punishment, there would be less of the protest that comes from all sections. The trial was widely regarded as a test of the power of the law and the power of money. The future of the prisoners is now widely viewed as a similar test to come, with expectation of a triumph of money in the second case as in the first. The unwelcome effect on the public mind, with the lack of confidence in law involved—this, rather than the actual cheating of the gallows, is what is to be deplored.

In 1884 the Republicans carried Maine in the September election by a plurality of 19,700, but in the following November Cleveland defeated Blaine in the Presidential election. In 1916 Hughes polled 52 per cent of Maine's vote, but lost in the country at large. In 1922 the Maine Republicans polled about 58 per cent of the vote, but the party lost control of Congress in the national election. These and other examples show that Governor Brewster's 57 per cent of his State's vote is not necessarily "decisive" so far as the election next November is concerned. As Maine goes, so may or may not go the nation.

FOOTBALL TEAMS
IN GOOD WORKOUT
HERE YESTERDAY

The Charleroi and Bentleyville High school squads benefited very materially through a practice game that was held at the Charleroi Baseball park yesterday. A large crowd was on hand to witness the workout. No official record will be made of the game as it was merely a practice game and not a regularly scheduled game for either team.

The Bentleyville authorities, as well as Coach Stepanian of Charleroi, felt the need of a practice game and it was agreed that it should be played with that end in view.

The Bentleyville squad, coached by Van Kirk, presented a very likely looking squad, one that will bear watching as they play the season's schedule. His first team's defense was strong and offered Charleroi's backfield plenty of resistance. His team seems to be well fortified with substitute material.

Charleroi looked good and as Coach Stepanian gave every eligible man on his squad a chance to work out, there was not much chance of forming an opinion of what can be expected in the games to come. The first string line did fairly good work and will improve as the season grows older. The backs tried out, all ran the ball well and it appears that in this department Charleroi will again be strong. The work out was not without its casualties as Dale Crytzer injured his ankle for the second time this season, after making a long run. He had to leave the game. "Fritz" Feehan met with some hard luck when his collar bone was dislocated. He will be out of the game for three weeks at least, according to reports from the team's physician, Dr. Repman. This brings the injured list up to three dependable veterans, as "Fat" Swenson, one of the most aggressive men on the squad, suffered a painful injury on Thursday night after practice session. Swenson fell on a broken bottle cutting a ragged gash in the palm of his left hand. It required five stitches to close the cut. He will not play for a week or ten days.

The new men on the squad showed up to advantage, but are a little green yet. Coach Stepanian did not comment or in any way express himself as to whether he was satisfied that the team is coming along fast enough to suit him. It is quite probable that Charleroi will be the guests of the Bentleyville High School athletic authorities before long in another practice game, as both Mr. Piersol and Coach Van Kirk were satisfied that this practice session served to bring out the weakness of their squad and seemed to think that another such meeting should be arranged later. It also serves to create a good feeling between the two neighboring schools.

Faculty Manager Copeland is making a strong effort to schedule games for the two remaining open dates, Sept. 27 and October 25. These dates will be filled with first class teams and will be played at home. A wire was sent to Coach Denton Moon of New Kensington High School requesting him to bring his strong team to Charleroi for next Saturday. In event that falls through the strong Dunbar Township High school will be approached. Efforts will be continued up to the last minute to furnish local fans with a real game on that date.

Brandt Enos will take over some of the work now carried on by the Faculty Manager. His work will be largely that of reporting to the press interesting news details regarding progress of the squad as well as accounts of the games. He is well qualified to handle the work and is a very dependable, intelligent and enthusiastic worker.

Season tickets will be issued provided the open dates can be filled at once. There seems to be a great demand for them by the public and a campaign will be inaugurated at once pending the scheduling of a game for Saturday next.

And what did you do then?
Why, then I came to you.

BOXING COMMISSION
SELECTS GOLDMAN
FOR STATE TITLEHAZEN CUYLER AND
EMIL YDE SAVE THE
DAY FOR PITTSBURGH

Brooklyn, Sept. 19.—Dodgers day dreams received a soggy jolt today while 10,000 natives of the Flatbush looked on. Skipper McKee's conclusion to start Emil Yde against the runners-up was forcibly justified as the youthful left-hander burned his way through the attack of the home hitters. The Pirates batted timely and a bit lucky in the first game of the important set.

The Dodgers had the tying run on the sacks in the ninth, but Yde appeared to be master of the situation as he made Homerun Fournier loft an easy fly to Hazen Cuyler to end the game. The score was 4 to 2.

The Pittsburghers increased their position so far as the immediate foe-man is concerned, but they didn't gain an inch on the common enemy who is holding to his two and one-half game lead tenaciously.

Brilliant fielding on the part of the Pirates in the fourth inning took the heart out of the runners-up. It was like this:

High singled to right. The crowd started the unison hand-clapping for a rally, but Mitchell flied to Carey and the clapping ceased. Wheat's roller started toward Maranville and then swerved away on a queer bound into right field for a single. High went to third. Moore's throw to Pie almost stopped High at third. Fournier started what looked like a perfect double-play. The ball went toward Maranville as Rabbit set himself for an easy bounder, the sphere struck something and hopped high into the outfield for a dumb-luck hit and High scored. Moore's fast fielding of the runaway ball held Wheat on second. Wright gave an imitation of Honus Wagner in his prime in his circus stop of Brown's bounder behind second. The drive was a single, but Wright's thrilling grab of the ball in one hand held Wheat at third. The lanes were loaded. Wright grabbed up Stock's grounder and stopped Wheat at the plate. Cuyler injected a whirlwind catch on Griffith with the bases still jammed. The crowd held its breath as the fast stepping left fielder came in frantically for the short fly. Cuyler's hands were almost on the grass tops and he was hitting a fast clip when the ball hit his eager digits. He held the ball. He was trying to stay on his feet. Cuyler gave a fine imitation of a windmill in action. The Pirates cheering section gave the recruit a great hand as he came to the bench. He could almost shake hands with Pie Traynor after catching up with himself. It was an inning the crowd will remember for many years to come.

ZIVIC SUSPENDED
FOR NINETY DAYS
IN NEW YORK

New York, Sept. 19.—Jack Zivic was suspended for 90 days by the boxing commission today for coming in overweight in his bout with A-hie Walker at the Henderson Bowl, Brooklyn, Tuesday, and in receiving the suspension Zivic carried his manager, Jimmy Bronson and the entire Bronson stable down for a like punishment.

Zivic has agreed to make 138 pounds for Walker and waddled up to the scales weighing 141. With the added weight that accumulated between weighing and fighting time, Jack was probably enjoying all the help of a welterweight. At any rate he banged Mister Walker right on the button and there was welterweight power behind it.

A RETURN MATCH
FOR CUDDY DEMARCO
WITH TOMMY O'BRIEN

Cuddy DeMarco is to get a chance soon at the fellow who recently beat him in New York. Waterbury, Conn., where DeMarco beat Kid Kaplan and others, has matched DeMarco with Tommy O'Brien, who last week dropped DeMarco in New York and received the decision over the local kid in 10 rounds. The bout is scheduled 12 rounds to a decision. DeMarco's proposed match with Johnny Dundee in Hartford, scheduled for next week, has been called off. Dundee retired from the ring after his defeat last Monday night at the hands of Jack Bernstein.

Like a thunderbolt from a clear sky came announcement today from the Pennsylvania state athletic commission that it has recognized Nate Goldman as the outstanding challenger of this state for the lightweight title. Goldman, who is a Philadelphian, has "lifted his check for \$500 which was placed in the hands of the commission because of the lack of persons to challenge him at the lightweight limit," in was announced.

The commission announced the indefinite suspension of Jack Lakenon on and from November 1, 1924. He was notified to return the contract and clippings of Midget Kilburn to the commission's office within the next 10 days. The commission has honored the contract of Kilburn with Willie Edwards, whose contract is prior to his, the commission announced.

The above action will likely meet with criticism from the western section of the state as the two leading contenders from Pittsburgh and Charleroi, Cuddy DeMarco and Jack Zivic, are still to be reckoned with in the tourney which is now in progress in New York. The reason given, "lack of challengers," seems weak as it is likely either one of the local lads would take the match to determine which has the right of being the state leader in the class.

It would seem by this announcement that the Pennsylvania Boxing commission would have the state representative for the elimination fought out in some other way than in the ring. Why does not the state commission arrange an elimination series for the state of Pennsylvania between DeMarco, Zivic and Goldman.

It would seem that this would be the logical way to determine the best man in the state for the place and then it would be fought out in the ring. In the event that such a series was arranged DeMarco can be depended upon to give a good account of himself.

TOMMY MANGAN COACHING

JACK REDDICK IS
KNOCKED OUT BY
PAUL BURLINBACK

New York, Sept. 19.—Running Paul Berlenbach, the sensational New York sock dealer, knocked out Jack Reddick of Canada, who is matched to meet Harry Fay at Louisville early in October, in the eighth round of a terrific fight. A right smash to the Reddick writhed on the floor in had made a mess of Reddick's face and had him staggering about the ring, put the Canadian down after one minute and 24 seconds of fighting in this round.

Reddick writhed on the floor in great pain, and then rolled over and was picked up and carried to his corner, where it took several minutes to fully revive him. Reddick nearly had Berlenbach down in the sixth round from right uppercuts and swings, but Paul proved too rugged to bring down.

Both bled freely. Berlenbach had his left eye badly lanced and "almost closed." Reddick bled from the nose, mouth and a cut over the eye. They fought valiantly all the way after a little feeling in the first round. Pa. Stribling and Young Stribling, whose sparring partner Reddick has been since shortly before Stribling fought Berlenbach a few weeks ago, handled Reddick.

A Correction.

In Thursday's issue of the Charleroi Mail on the sporting page there appeared an account relative to the coaching staff of Bentleyville High School football squad. It was stated therein that Dr. Herington, former University of Pittsburgh star was assisting with the coaching at Bentleyville. Coach VanKirk called Faculty Manager Copeland's attention to this, informing him that it was not the case. Therefore, to correct the impression this appears with the hope that it will be brought to Dr. Herington's attention.

The Voice of the North

From a little ice-bound schooner—eleven and one-half degrees from the North Pole comes this message:

"Am very thankful that Arctic Exploring Ship Bowdoin is equipped with complete Zenith radio apparatus. Here at top of world, in darkness of great Arctic night, we have already listened to stations practically all over United States, from Europe, and even from far away Honolulu. Zenith has united the ends of the earth." — MacMillan.

"The TURMOIL"

Prominent individual negroes have declared for John W. Davis on the Klan issue, but the Association for the Advancement of colored people has officially endorsed La Follette. To what extent the rank and file will vote the Republican ticket, as formerly, remains to be seen.

Determined to name the winner, the father of triplets now assists in nursing a little boy named Davis and a little girl named La Follette.

The term, "sky pilot," is no longer merely metaphorical. Already a Catholic bishop flies about his South Sea island diocese in a seaplane and it is announced that the Episcopal bishop of Haiti will use an airplane in making his professional visits.

It used to be gibingly said that Americans "dearly love a lord." The attitude of some of us toward a Prince of Wales is a far cry from that.

Should Buy Some

"Yes, poor little Tommy seems very queer," remarked Mrs. Jones to her visitor. "I really don't know what to do for the best."

"By Jove!" drawled her self-important neighbor.

"I've got some medicine for him, but it doesn't seem to be helping much."

"By Jove!" drawled the visitor again.

"Mumme," broke in little Dolly, "why not take the gentleman's advice and buy some Jove?"—Detroit Free Press.

In Society's Realm

A very pleasant evening was passed in playing games and social converse. Mrs. Eneix received a very beautiful gift from the class members. At a late hour a delicious luncheon was served by the class after which the guests departed with wishes for many happy returns of the day.

Dig Dinosaur's Bones
From Rock in Museum

Washington.—Charles W. Gilmore, curator of vertebrate paleontology at the Smithsonian institution, has begun excavating from solid rock the skeleton of an enormous dinosaur which he presented to the institution last autumn. More than five years will be required, Mr. Gilmore estimates, to place the skeleton in such condition that it will be ready for exhibition in the national museum.

The skeleton, which is the largest specimen ever brought to the Smithsonian, measures 80 feet in length and 14 feet in height. To bring the bones to Washington from their original resting ground in the dinosaur national reservation, near Jensen, Utah, required the exertions of a large number of men. The bones and rock in which they are imbedded weigh 50,000 pounds. At one stage of the journey, the excavators were forced to transport them 150 miles by automobile.

Three men, working eight hours a day for four months, Mr. Gilmore said, will only be able to disinter three of the dorsal vertebrae of the reptile. Some sections are already being arranged by workmen, but 34 packing cases containing more than 80 vertebrae are still lying unopened in the basement of the museum.

Norman H. Boss, preparator in fossil vertebrates, is assisting Mr. Gilmore to reconstruct the skeleton.

CARD OF THANKS.

We wish to take this means of thanking all the friends and neighbors for their kind acts and deeds in our time of bereavement, the illness and death of our beloved daughter and sister. Especially do we thank those who sent such beautiful floral tributes, those who donated the services of their automobiles, the doctors who were tireless in their efforts, also the nurses and the priests for their words of condolence and daily visits. These kind acts shall long remain fresh in our memory and help sustain us during our hours of sorrow.

Mr. and Mrs. Alfred Horn and family. 911p

Landau Coupe \$1295, factory

If you want a smooth, powerful engine, with an energetic, impetuous pick-up waiting for the throttle, you will enjoy the Oakland.

If a sparing use of gasoline seems important, you will find the snap in Oakland performance is not secured from a big, gas-eating engine. Racing engine practice was followed—Swiss watch precision in building adopted. The result—the small-displacement True Blue engine gets more power and more miles out of a gallon.

If it is riding comfort and a feeling of solid road-worthiness under you and over you, come in and check over Oakland's tried-and-true, year-proved points of superiority in these attributes.

If you are particular about the finish on your car—Oakland's standard finish is Duco. It holds its lustre indefinitely—comes up smiling after unbelievable abuse.

And Oakland's rigid precision standards of building make these qualities you desire in your motor car, permanent attributes!
